UNION

April 21, 2015

The Honorable Michael Burgess
Chairman
Subcommittee on Commerce, Manufacturing and Trade
Energy and Commerce Committee
2125 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Burgess:

The American Conservative Union is pleased to support the Targeting Rogue and Opaque Letters (TROL) Act of 2015. This bill carefully targets deceptive and fraudulent practices in asserting patent rights while protecting the legitimate rights of patent holders to protect their intellectual property.

While adding these deceptive practices to those already under Federal Trade Commission jurisdiction, the definition of these practices is clearly defined and not left to the discretion of government bureaucrats.

ACU has always been strongly committed to protecting intellectual property rights. This legislation in its present form does that while taking needed action against abusive practices that are harmful to small business. We urge members of the Subcommittee to support this bill and the full Energy and Commerce Committee to act on the bill as soon as possible.

Sincerely,

Dan Schneider
Executive Director
American Conservative Union
